

# **Conservative Aircon Usage Policy**

*Adopted from our usual practice in the condo, put to paper for clarity.*

Please only use the Aircon when there are at least **two (2) tenants** inside the bedroom. **Or with consent** from any other tenant present but not in the bedroom.

-

Aircon must only be set to a maximum of **5 and Low Cool**. Turn on the electric fan to feel cooler if necessary.

-

Do not leave the aircon on for more than **six (6) hours**. The first one to rise in the morning must turn it off if it has surpassed 6 hours.

# Common Courtesy Policy

Adopted from our usual practice in the condo, put to paper for clarity.

Please **refill the water pitcher** whenever you drink from it to ensure there is cold water for the next drinker. The same principle applies to all utilities found in the condo.

-

**Leave the place as clean as you found them**, if not make it cleaner. Leave the tables and chairs neat, and the shower area open to dry.

-

**Unplug all the electronics** (except the fridge) and turn off the lights if you are the last one to leave for the weekend.

## **“When in Japan” Principle**

*The Condo Golden Rule*

Observe good practice  
and etiquette common to  
most, follow it.
